

InsurTech in the Boardroom

InsurTech Hartford & Nassau Re invite you to join us for an exclusive InsurTech event targeted toward insurance industry leaders. We will hear from innovative AI experts and watch a live shark tank-like session as InsurTech startups rapidly deliver pitches about their companies. **Lunch will be served promptly at 12:00.**

Seating is very limited and requires pre-registration.

RSVP by Sept 7

Hear Pitches From Exciting New InsurTech Startups!

Luminant
ANALYTICS

Luminant DRIVEN is an innovative solution enabling competitive costing for automotive (re)insurance professionals that offers an unparalleled view of factors driving automotive losses via validated, curated and up-to-date external data.

Is your claims process inefficient, clunky, and just a cumbersome part of your business? Is your claims process expensive and a waste of the true talents of your employees? With the Benekiva platform you can increase customer and employee satisfaction, comply with the ever changing unclaimed property laws, and manage the entire claims process.

Benekiva

HazardHub

We believe everyone should know the risks around their property. HazardHub is the only third-generation provider of property-level hazard risk databases. Our team of scientists translates huge amounts of geospatial digital data into easy-to-understand answers, providing risk assessments that can be used to make real-world decisions.
